## Save Money

Martec can carriers are made with little material which helps you on cutting costs.

## Eco Packaging

Make your product zero waste. No need for plastic or glue by using this recyclable alternative.

## Boost your brand

Print your logo or promotional campaign on the can carriers in full colors.

## Promotes Hygiene

The carrier protect cans from dust and pollutants, keeping the products clean.

## Be a factor of change!

**100% recyclable**, cardboard-made can carrier. For **4, 6 and 8 PACKS** of all cans formats (**Standard, Sleek & Slim**). Its design minimizes the amount of material used for its manufacture while maximizing printing space.

## Characteristics

- **Moisture resistant** (tested in real canning conditions).
- Strong grip for cans up to 500 mL (17 fl oz.) for **all can formats**.
- The best performance in the market for **Sleek** and **Slim** cans.

## Applicators

### Handheld Applicators

3D printed handheld applicators for 4 and 6 packs. Pressure must be applied from the top, down.

### Manual Press

For making the handheld application faster. Recommended for 6 pack handheld applicators.

### TH24 Pneumatic Applicator

24 cans at a time can carriers application. All can formats and packs. Average insertion speed: up to **2,200 cans/hour**.

### TH39 Automatic applicator

For all Can Carriers formats and packs. Average application speed: up to **14,000 cans/hour**.
