## Boost your brand

Elevate your brand with full-color printing. Whether it's your logo or a promotional campaign, your product will stand out from the rest.

## Eco Packaging

Embrace sustainability with zero-waste packaging. Our curbside recyclable solution eliminates the need for plastic or glue.

## Promotes Hygiene

The Martec can carrier shields your cans from dust and pollutants.

## Save Money

Without compromising quality, Martec can carriers use minimal materials, saving you money.

## Be a factor of change!

**100% recyclable**, cardboard-made can carrier. For **4, 6 and 8 PACKS** of all cans formats (Standard, Sleek & Slim). Its design minimizes the amount of material used for its manufacture while maximizing printing space.

## Characteristics

- **Moisture resistant** (tested in real canning conditions).
- Strong grip for cans up to 500 mL (17 fl oz.) for **all can formats**.
- The best performance in the market for **Sleek** and **Slim** cans.

## Applicators

### Handheld Applicators

3D printed handheld applicators for 4 and 6 packs. Pressure must be applied from the top down.

### Manual Press

For making the handheld application faster. Recommended for 6 pack handheld applicators.

### TH24

### Pneumatic Applicator

24 cans at a time can carriers application. All can formats and packs. Average insertion speed: up to **36 cans/minute**.

### TH39

### Automatic applicator

For all Can Carriers formats and packs. Average application speed: up to **250 cans/minute**.
